

PDD KZ

Hello, driver.

A new way to prepare for Kazakhstan's traffic-rule exam —
adaptive, intelligent, and personal.

THE PRODUCT

One app. Three surfaces. Endless practice.

PDD KZ lives on iPhone, syncs to Apple Watch, and surfaces your streak on the Home Screen. Built entirely with SwiftUI and powered by Apple Intelligence.

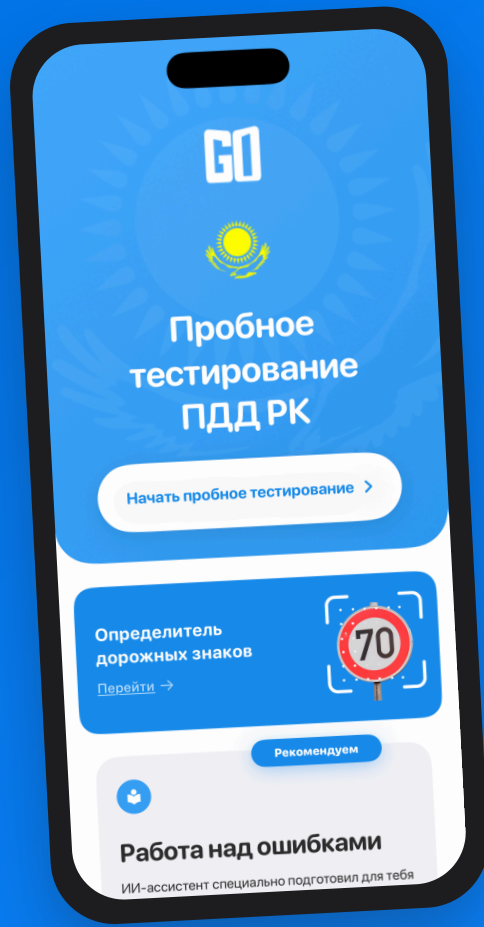

HIGHLIGHTS

THE BANK

848 questions.
Full bank.

Offline-ready. Officially aligned.

AI TUTOR

Meet Akzhol.

A Kazakh traffic-inspector persona that explains rules, reviews mistakes, and reads road-sign photos.

Apple Intelligence

Gemini 2.5

STREAK

Daily fire.

Mon-Sun
progress. Best
record kept.

LANGUAGES

3

**RU · KK ·
EN**

Switchable at
runtime.

Mistake-driven loop.

Every wrong answer is saved and re-asked until you master it.

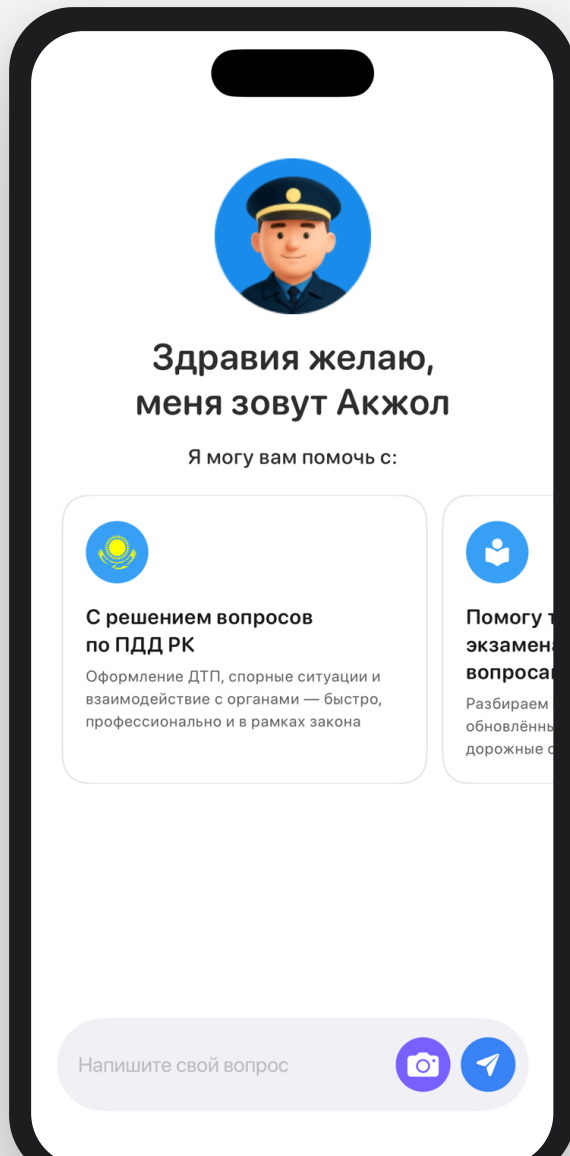

Apple Watch

Widgets

Akzhol.

Always on. Always patient.

On-device by default.

Text questions run through Apple Intelligence locally. Fast, private, and free of network costs.

Cloud when it matters.

Photos of signs and richer explanations fall back to Gemini 2.5 Flash with automatic retries.

Reviews your mistakes.

After a failed quiz, Akzhol receives the list of wrong answers and walks you through each one.

Trial exams.

Tuned to how you learn.

Standard Trial Exam

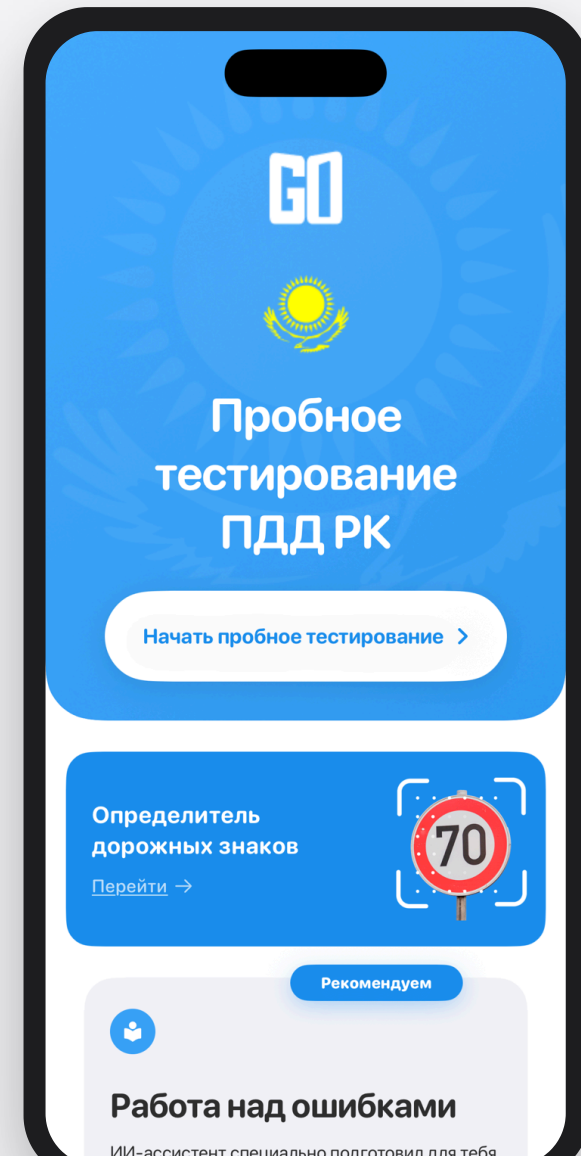

30–50 questions on a timer, modeled after the real Kazakhstan exam — including pass/fail thresholds.

Individual Testing

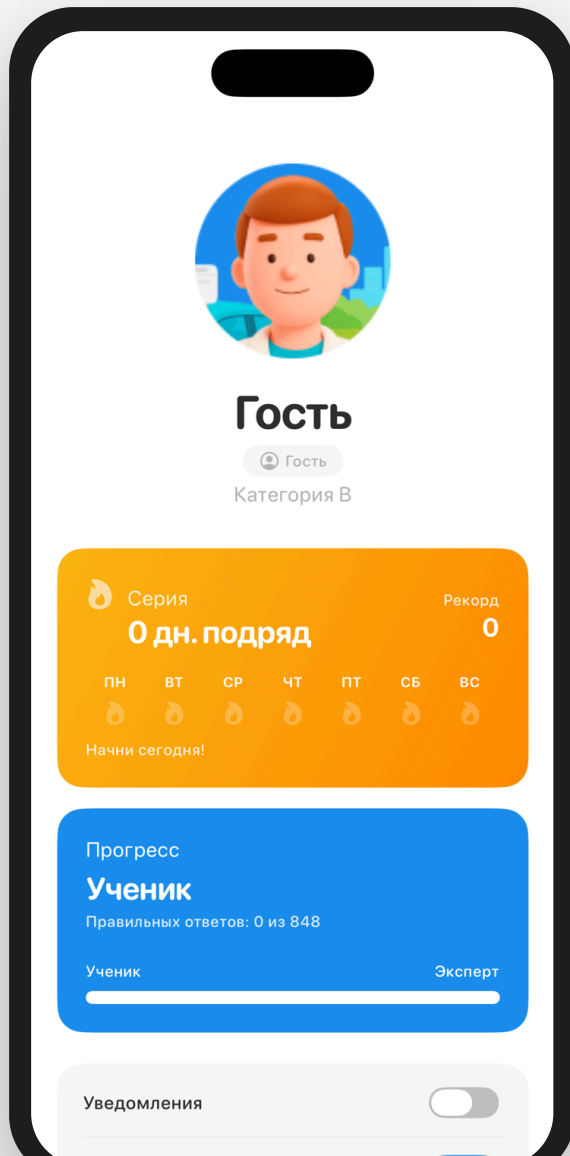

Adaptive sessions built only from your personal mistake bank. Unlocks the moment you make a wrong move.

Road Sign Detector

Snap a photo of a sign and Akzhol identifies and explains it in your language.

Show up daily. Watch yourself grow.

Daily streaks.

A weekly fire indicator turns Monday-through-Sunday into a habit that's hard to break.

Level progression.

Three tiers — Learner, Driver, Expert — based on correct answers across the full 848-question bank.

Personal identity.

Sign in with Apple or Google, or stay in guest mode. License category, language, and toggles are yours.

Everywhere you look.

iPhone

The hub. Full SwiftUI experience: Tests, Akzhol, Profile, Video Lessons. Writes shared snapshots after every quiz.

SwiftUI

@Observable

iOS 26

Apple Watch

Streak, best record, and total correct answers on your wrist. Synced via WatchConnectivity.

Widgets

Home & Lock Screen widgets reading a shared App Group snapshot. Small, medium, and accessory-circular.

One source of truth.

App Groups + WatchConnectivity keep every surface in sync. Take a quiz on iPhone, see the streak update on the Watch and in the widget — instantly.

Native through and through.

AI

OnDeviceAkzhol

FoundationModels for private on-device inference.
